New Yorkers for Better Libraries (NYLIBS-PAC) is a political action committee formed in 2003 by New York library advocates who believe that increased state aid for libraries and library systems is essential so that library and information services can be sustained and improved for the people of New York.

The Public Library Directors' Association of Suffolk County (PLDA) was organized in 1977 to promote public librarianship and public library service in Suffolk. This professional association also provides means for public library administrators to work with the Suffolk Cooperative Library System (SCLS) in the determination and fulfillment of System objectives, which benefit all Suffolk County residents.
